Experience

Bet365 | Software Developer, Sports, Members

April 2019 - August 2022 | Manchester, UK

- Merge Sports mobile and desktop websites into a responsive website using TypeScript, SASS and an in-house framework. The website reached 60 million users worldwide.
- Learn GO language in two months and converted part of the monolith ASP.NET members project into GO microservices and in-house frontend framework.
- Create a tool which allows member pages to be switched from ASP.NET to GO codebase and reverted based on country and page type. This allowed us to safely deploy converted pages in specific countries with the option to revert.
- Mentor two graduated developers by creating educational projects and challenges, suggesting reading materials, doing code reviews and evaluating their progress. Both of them moved to junior positions in one year.

TopCashback | Software Developer, Business Critical, White label

June 2016 - April 2019 | Manchester, UK

- Develop a feature for localization for the TopCashback website using ASP.NET Webforms, VB.NET and SQL which allowed for developing TopCashback Indian.
- Develop a new white label website using ASP.NET MVC with C#, NoSQL and Angular.js and deploy on AWS for one of the major UK banks.
- Develop a tool for copying data from SQL database to NoSQL(Raven) database using C# and RabbitMQ as a messaging queue to handle spikes of data update. The tool provided synchronisation and consistency of the data between the websites.

DevriX | Software Developer Intern, WordPress

June 2013 - September 2013 | Sofia, Bulgaria

- Develop open source URL shortener WordPress plugin using PHP and JavaScript.
- Develop a plugin for managing reservations using PHP, jQuery and SQL which was later used by two restaurant websites for managing reservations.

Education

The University of Salford | BSc Software Engineering

- First Class degree, May 2018, Manchester UK
- Develop project management software for Kanban methodology using ASP.NET MVC with C#.

Amazon Web Services Academy

- AWS Certified Developer Associate, June 2021
- AWS Certified Cloud Practitioner, March 2021
